

What is claimed:

I claim:

1. A personal emergency alarm device comprising:
A housing having opposing front and rear sides, said alarm device being worn on a cord of comfortable length, fastened to the wrist, belt loop or around the neck.

an alarm device that can be worn under clothing so as not to be obvious to others.

a sensor disposed on the inside of said housing to activate the device when the control switch gives the command.

a control circuit which may trigger the device to activate the alarm and the visual signal as a signal that emergency assistance is required.

a battery power source for powering said alarm unit, and a rechargeable battery power jack as a back up power source.
2. An alarm device according to claim 1 wherein said alarm unit further comprises a compartment for storing medical information that will provide immediate information to rescue teams or bystanders.
3. An emergency alarm device according to claim 2 wherein said prescribed alarm is produced by a light signal and an audio alarm signal.
4. An emergency alarm device according to claim 2 wherein said prescribed alarm is produced by a flashing light as a visual alarm signal.
5. An emergency alarm device according to claim 2 that has a compartment for containing a medical booklet of personal information of the person who may require a rescue.
6. An emergency alarm device adapted to be worn on a person at all time if needed, or worn on a person at the times of their choosing who may require a rescue.

an emergency alarm device that will produce a signal by sound and/or light.

an alarm triggering means including at least one sensor for activating the device upon receiving the command from the control switches.
7. An emergency alarm device that contains information that increases the versatility of the device without substantially increasing the cost.
8. An emergency alarm device that can be equipped with a code so only the device activated will send out signals, especially in the close proximity such as apartments, classrooms, offices and other close spaces.
